

MISS MUSTARD SEED'S[®] MilkWax-ECO[™]

INGREDIENTS

Carnauba Wax, Walnut Oil
Color variations also contain Beeswax
and Natural Pigments

HOW TO STORE IT

Store container upright at room temperature with lid secured. Keep away from high heat as that may cause the wax to melt and/or separate.

HOW TO USE IT

Use a clean cotton cloth or wax brush to apply wax in a thin layer, working into recesses of carved details or surface imperfections. Wipe away excess. Allow it to stand for 15 minutes. Buff to a shine with a clean lint-free cotton cloth. This product may be applied directly over dry milk paint, directly on raw wood, or over any of our other wax finishes. Clean brush with soap and warm water or Mineral Spirits.

KEY FEATURES

- No VOCs
- Non-Toxic
- Environmentally friendly
- Food-contact safe
- Easy to apply with a lint-free cloth or brush.
- Can achieve a variety of finishes from matte to semi-gloss depending on how many coats are applied and the method of buffing.
- This is an extremely hard scrubbable, mold and mildew resistant finish (cabinetry, bathrooms, tabletops, etc.).

ADDITIONAL TIPS

- Colored waxes can be applied over Clear for workability and a more subtle look.
- Wax may melt in extreme temperatures, even after furniture application and curing. Not for outdoor use.
- Use multiple thin layers for best outcome.
- Wait 5-7 days before light use, 30 days full cure.
- Wax is intended to be the final coat of a project.
- Earthy scent will dissipate with time.
- Should only be applied over raw wood, MilkPaint[™], or stained (water or oil based) surfaces. Not compatible with other paints.
- Food-contact safe - can be used on cutting boards, countertops, and other food-contact surfaces.
